## 1. INTRODUCTION:

This ART report provides demographics on clients served during a user specified reporting period. Data is compiled using the last transaction per client for Entry/Exits, Services and/or Shelter Stays. The report also contains various tabs with tables and graphs for Project Type, Age/Gender, Race/Ethnicity, Homeless Condition, Veteran Status, Disability, Domestic Violence/Extent, Income/Non-Cash Benefits, and Employment/Education.

In order to facilitate reporting for CoC's working to end Chronic and Veteran Homelessness by 2016 as specified in HUD's strategic plan data can be limited by the user to include only Veterans, only Chronically Homeless Clients or Chronically Homeless Veterans.

The primary audience of this report includes project managers, agency administrators, and ServicePoint system administrators because of its ability to aggregate client data for multiple projects, reporting groups or continuums.

*Special Note: The report contains a significant amount of data and is likely to have a longer than expected run time. Scheduling the report is recommended if running for long date ranges or for a large number of providers.*

This report is intended to be used as often as needed to pull demographic data about projects in the Continuum of Care.

Prerequisites and workflow requirements:

- ServicePoint version 5.11x
- ART version 3.1
- Workflow requirements vary based on whether the user selects Entry/Exits, Services or Shelter Stays for the report run.
- The last transaction is used if more than one transaction exists for a single client. See Tech Note 6.2 for more information.

## 2. REPORT INSTRUCTIONS AND PROMPTS:

The easiest way to start using this report is to navigate to the automapper. This is a folder that has the reports automatically mapped to your site, so that you don't have to map them yourself. You can navigate to the automapper as shown in Figure 2.1, below:

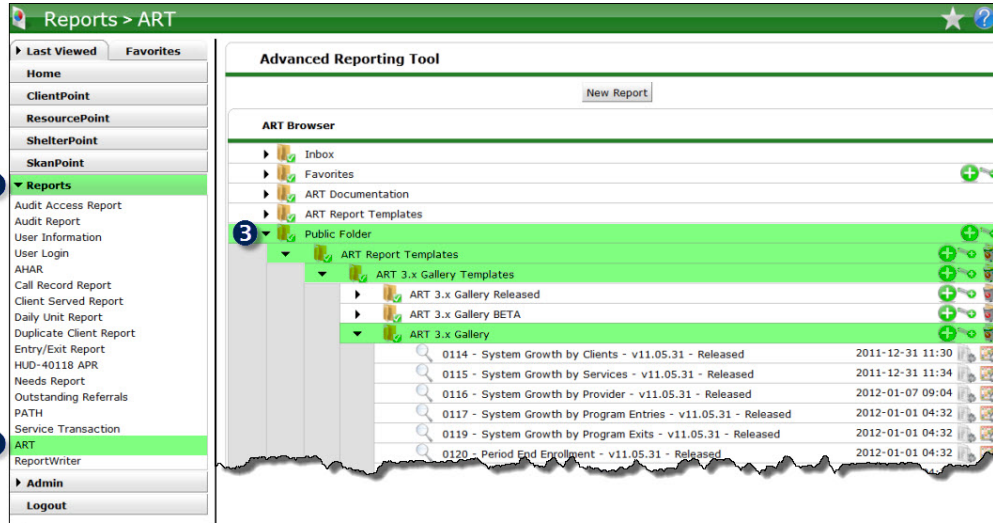

Figure 2.1

Requests for additional information concerning the report function/design should be directed to Bowman Systems' Customer Support Specialist (CSS) staff.

**Before running the report:** Prior to running the report the user must have access to:

- A list of the desired providers, provider groups or CoC Codes
- Service Code Descriptions
- Shelter Service Codes

**How to run:** Upon opening the report, the User will be prompted (see Figure 2.2) to specify parameters which control the data returned by the report. Once the User has provided these parameters by responding to the user prompts, a green check-mark will appear next to each field to indicate that a selection has been made. The User should then single-click the "Refresh Data" button to generate the report.

Figure 2.2

The user prompts contained in this report are:

1. **Enter Start Date:** The user should enter (or select from the calendar) the first day of the desired date range.
2. **Enter End Date PLUS 1 Day:** The user should enter (or select from the calendar) the date immediately following the last day of the reporting date range.
3. **Select Provider(s):** This prompt is optional. The user should select the desired provider or providers.
4. **Select CoC Code(s):** The user should select the CoC Code(s) desired.
5. **Select CoC Code(s) RETIRED:** This prompt is optional. The user should select the desired RETIRED CoC Code.
6. **EDA Provider:** The user should select the EDA provider to run the report as, or leave it at the default "-Default Provider-" if EDA mode is not desired.
7. **Select Provider Reporting Group:** This prompt is optional. The user should select the desired Reporting Group(s).
8. **Select Service Code(s):** This prompt is optional, if left blank the report will pull in all of the applicable service codes in the specified data set. Otherwise, the user can select specific service codes to use in compiling the data in the report. Note: Services are handled differently in the report (see Tech Notes 6.2). Shelter Service Codes should NOT be selected here.
9. **Enter N to Exclude Entry/Exits from Report (leave blank to include):** Entry/Exits will be excluded from the report if N is selected.
10. **Enter N to Exclude Shelter Stays from Report (leave blank to include):** Shelter Stays will be excluded from the report if N is selected.
11. **Enter N to Exclude Services from Report (leave blank to include):** Services will be excluded from the report if N is selected.
12. **Select Shelter Codes:** The user should select appropriate Shelter Codes. A list of BH-1800+ codes and TH-2600.1580-140 are set to default.
13. **Enter Y for Chronic Homeless ONLY (leave blank for all):** Entering Y will limit the data in the report to ONLY CH clients.
14. **Enter Y to Include CH YN Question? (leave blank to exclude):** Entering Y will use the Is Client Chronically Homeless YN question in the report.
15. **Enter Y for Veteran ONLY (leave blank for all):** Entering Y will limit the data in the report to ONLY veterans.

**Note: See Tech Note 6.2 for additional information on selection of Provider, Provider Reporting Group and CoC Code.**

### 3. DESCRIPTION AND LAYOUT:

#### 3.1 Tabs A through I – Varied Demographic Tables

Each tab has several tables and graphics that describe .... Figure 3.1 shows a sample of one of the tabs in the report (Project Type).

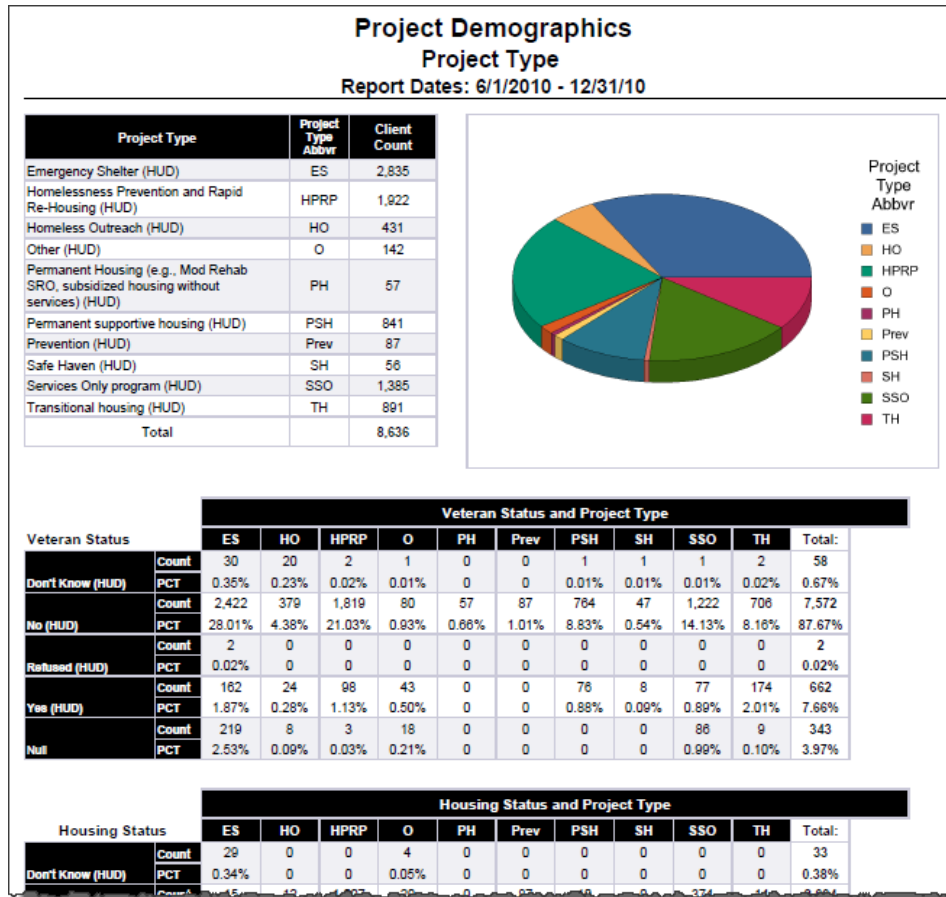

Figure 3.1

Tabs A through I contain tables and graphics for the following data sets:

- Project Type
- Age/Gender
- Race/Ethnicity
- Homeless Condition
- Veteran Status
- Disability
- Domestic Violence/Extent
- Income/Non-Cash Benefits
- Employment/Education

Information is provided in tables, graphs and cross-tabs. Each of the columns in cross-tabs is labeled for ease in reading the tables.

### 3.2 Tab J – Client Detail

This tab contains the Client Detail for the clients included in the report. The report is limited to the transaction that is **bolded**.

Project Demographics																						
Client Detail																						
Report Dates: 6/1/2014 - 12/31/14																						
Client Id	Client Unique Id	Trans Id	Age	Gender	Primary Race / Secondary Race	Ethnicity	Prior Living Situation	LOS	Disab	CH HUD	Cont Hmls	Times Home	CH YN	Vet	DV	DV Ext	Inc	NC	Health Ins	Empl	Tenure	Education

Figure 3.2

#### Column Explanations:

- **Client Id:** The Client Id (and count) are provided for each client in the report.
- **Client Unique Id:** The Client Unique Id (and count) are provided for each client in the report.
- **Trans Id:** The Transaction Id is provided for each client in the report.
- **Age:** This column provides the age for each client in the report.
- **Gender:** This column provides the gender for each client in the report.
- **Primary/Secondary Race:** This column provides the primary and secondary race for each client
- **Ethnicity:** This column provides the ethnicity for each client in the report.
- **Prior Living Situation:** This column provides the prior living situation for each client in the report.
- **LOS:** This column provides the length of stay in prior residence for each client in the report.
- **Disab:** This column provides the Disability Status for each client in the report.
- **CH HUD:** This column provides the Chronic Homeless status for each client in the report based on the HUD definition
- **Cont Hmls:** This column shows a Y for clients who have been Continuously Homeless for 1 year or longer or 4 or more times in the past three years
- **CH YN:** This column displays the value for CH YN
- **Vet:** This column provides the Veteran Status for each client in the report.
- **DV:** This column provides the Domestic Violence Status for each client in the report.
- **DV Extent:** This column provides the Domestic Violence Status extent for each client in the report.
- **INC:** This column provides the Income Y/N status for each client in the report.
- **NC:** This column provides the Non-Cash Benefit Y/N status for each client in the report.
- **Health Ins:** This column provides the Health Insurance status for each client in the report
- **Empl:** This column provides the employment status for each client in the report.
- **Tenure:** This column provides the employment tenure for each client in the report.

### 3.3 Tab K – Trans Detail

Data on the Trans Detail tab is provided for reference and data cleaning purposes. The transaction that is **bolded** is the one that is used for counting purposes in the body of the report.

Project Demographics Transaction Detail Report Dates: 6/1/2010 - 12/31/10

Figure 3.3

#### Column Explanations:

- **Client Id:** The column includes all of the Client Ids in the report range.
- **Client Unique Id:** The column includes all of the Client Unique Ids in the report range.
- **Trans Id:** This column provides the transaction Id for each Entry/Exit, Service or Shelter Code.
- **Trans Type:** This column displays the type of transaction – Entry/Exit (EE), Service Transaction (ST) or Shelter Service (SH).
- **Provider:** This column provides the name of the provider.
- **Start Date:** This column provides the Start Date of the transaction.
- **End Date:** This column provides the End Date of the transaction.
- **Service Code:** This column provides Service Code Description for Services and Shelter transactions (-n/a- is displayed for Entry/Exit transactions).

### 3.4 Tab L Additional Information

This tab contains the Prompt Values and Providers included in the report.

Project Demographics Additional Information Report Dates: 6/1/2014 - 12/31/14	
User Prompt Field	Value(s) Selected
Enter Start Date:	6/1/2014
Enter End Date PLUS 1 Day:	1/1/2015
Select Provider(s):	1 Flamingo PT:TH TA1:SF+HC(2691); 1 Abyssinian PT:ES TA1:YMF(1238); 1 Albatross PT:ES(2055); 1 Alligator PT:ES TA1:SMF+HC(2804); 1 Chameleon PT:O(819); 1 Cheetah PT:O(1177); 1 Coyote PT:O(1431)
Select CoC Code(s):	None Selected; WI-500

Enter Y for Chronic Homeless ONLY (leave blank for all):	-Blank- (Optional Prompt)
Enter Y to Include CH YN Question? (leave blank to exclude):	y
Enter Y for Veteran ONLY (leave blank for all):	-Blank- (Optional Prompt)

Figure 3.4

## 4. INPUT CONTROLS:

### 4.1 Tab J – Client Detail

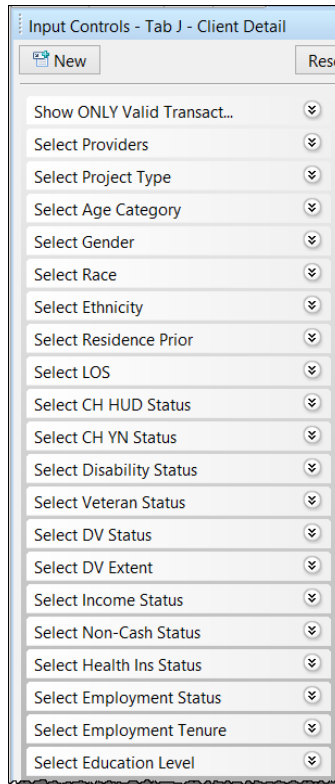

Figure 4.1

Input controls include the following and allow the user to filter the data for each of the following:

- 1) **Show ONLY valid Transaction** – this input control allows the user to limit the data set to reflect only the valid transaction and is defaulted as such. To see all of the transactions, select All values.
- 2) **Providers**
- 3) **Age Category**
- 4) **Gender**
- 5) **Race**
- 6) **Ethnicity**
- 7) **Residence Prior**
- 8) **LOS**
- 9) **CH HUD Status**
- 10) **CH YN Status**
- 11) **Disability Status**
- 12) **Veteran Status**
- 13) **DV Status**
- 14) **DV Extent**
- 15) **Income Status**
- 16) **Non-Cash Status**
- 17) **Health Insurance Status**
- 18) **Employment Status**
- 19) **Employment Tenure**
- 20) **Education level**

## 4.2 Tab K – Trans Detail

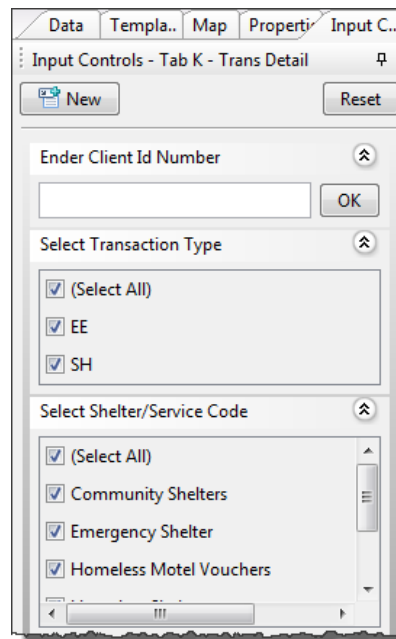

Figure 4.2

### Input controls include the following:

- 1) **Enter Client ID Number:** this input control allows the user to filter the data to a single client by entering the appropriate Client Id number
- 2) **Select Transaction Type:** this input control allows the user to filter the data to a specific transaction type (Entry Exit, Shelter Service, Service Transaction)
- 3) **Select Shelter/Service Code:** this input control allows the user to filter the data to a specific shelter/service code

## 5. ALERTERS:

### 5.1 Tab L – Additional Information

1. There are two alerters on Tab L to alert the user to two separate issues.
  - a. The first alert is found in the Select Service Code(s) cell on the Additional Information tab. This alerter will appear in red to alert the user that Shelter services have been included in the Service section of the report. Shelter Service Codes should be included in the Shelter Code(s) prompt only.
  - b. The second alert is found in the Shelter Codes cell on the Additional Information tab. This alerter will appear in red to alert the user that the default Service Code prompts have been altered. This may or may not be an error.

Enter End Date PLUS 1 Day:	11/1/2011
Select Service Code(s):	
<b>** ALERT: You have included SHELTER service codes in the SERVICES prompt. See report manual for details.</b>	Community Shelters
Enter N to Exclude Entry/Exits from Report (leave blank to include):	-Blank- (Optional Prompt)
Enter N to Exclude Shelter Stays from Report (leave blank to include):	-Blank- (Optional Prompt)
Enter N to Exclude Services from Report (leave blank to include):	-Blank- (Optional Prompt)
Select Shelter Codes:	BH-1800; BH-1800.1500; BH-1800.1500-050; BH-1800.1500-080; BH-1800.1500-100; BH-1800.1500-200; BH-1800.1500-700; BH-1800.1500-800; BH-1800.8500; BH-1800.8500-150; BH-1800.8500-170; BH-1800.8500-300; BH-1800.8500-500; BH-1800.8550; BH-1800.9000; TH-2800.1580-140
<b>** ALERT: You have changed the default SHELTER codes.</b>	

Figure 5.1

## 6. TECHNICAL INFORMATION:

### 6.1. How the data are pulled:

This report utilized two separate queries, one of which is based on the Resource Universe and one of which that is based on the Event Universe.

The Providers query (Resource Universe) pulls providers by provider name, new CoC code or old CoC code.

The BISData query (Event Universe) pulls transactions by providers from the Provider query, as specified in the prompts during the user specified date range. Transactions include any of the following:

- Entry/Exits
- Services as selected in the prompts or all if none specified
- Shelter Services created either using ShelterPoint or created using with a Service Transaction with a Shelter Code (BH-1800+ and TH-2600.1580-140).

### 6.2. Technical notes:

- a) The report contains a significant amount of data and is built in the Event Universe, therefore it is likely to have a longer than expected run time. Scheduling the report is recommended if running for long date ranges or for a large number of providers.
- b) In the prompts the user has the option to select Provider(s), Provider Reporting Group or CoC Code(s). It is important to note that selecting from more than one of these at a time widens the “net” in terms of pulling data. So for example, selection of a single provider and a CoC Code will return data for both the provider and all of the providers with the appropriate CoC Code.
- c) Three different transaction types are used in the report and the report can include any combination of these. These types and they way they are counted are described below:
  - I. Entry/Exit (EE) – Entry/Exit records are included when the Entry/Exit Start and End Dates overlap the report Start and End Dates (Figure 6.2.1). All Entry/Exit Types are included when Entry/Exit records are selected in the prompts.
  - II. Services (ST) – Service Transaction records are included when either a specified service description(s) is selected or if none is specified then all Service Transaction Types will be included in the report. Service Transactions are included only when the Start Date of the Service fall during the date range specified in the prompts.
  - III. Shelter Services (SH) – Shelter Service records are included when there is a ShelterPoint service or a Service Transaction created with a Service Transaction with a Shelter Code (BH-1800+ and TH-2600.1580-140). The default codes can be altered in the prompts by the user. Shelter Services are included when the Start and End Dates overlap the report Start and End Dates (Figure 6.2.1)

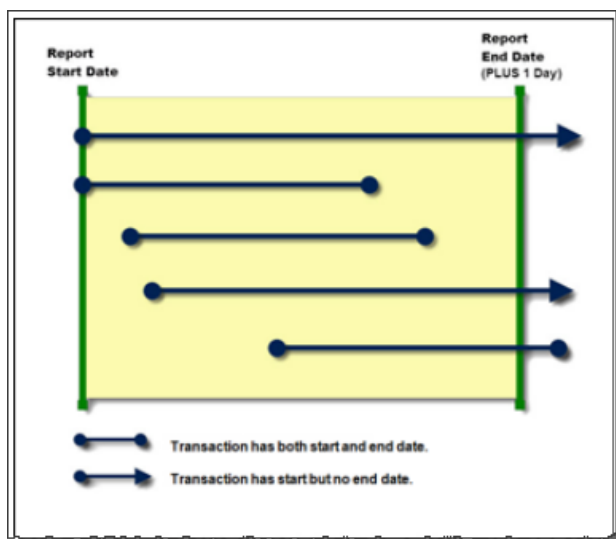

Figure 6.2.1

- d) The values depicted in the report are the values that are valid as of the Start Date of the transaction. They are derived from the Last Transaction per client that occurred during the date range specified in the prompts. The valid transaction is displayed in bold lettering on both the Client Detail and the Trans Detail.
- e) In the “Service Code” prompts the user should specify ONLY non-Shelter Service Codes to display accurate results. If Shelter Codes are specified in this prompt, an error will appear on the Additional Information Tab.
- f) In the “Shelter Code” prompts the user should specify ONLY Shelter Service Codes to display accurate results. An alerter will appear on the Additional Information Tab if the default shelter codes are modified. This may or may not indicate an error.
- g) Non-HUD or altered pick list values will appear in the report in the “error” cell.
- h) For the Age categories = negative ages or ages over 105 years will appear in the “error” cell.
- i) Chronic Homelessness HUD is determined with a Yes to Disability of Long Duration AND either Continuously Homeless 1 year or Longer OR homeless 4 or more times in the past 3 years.
- j) The data in the report can be limited to Veterans ONLY, Chronically Homeless Clients ONLY, or to Chronically Homeless Veterans. If one of these special filters is selected in the prompts the headers on each tab will reflect this change (Figure 6.2.2).

Project Demographics		
Project Type for Chronically Homeless Veterans		
Report Dates: 6/1/2010 - 12/31/10		
Project Type	Project Type Abbr	Client Count
Emergency Shelter (HUD)	ES	38

Figure 6.2.2

### **6.3. Modification options:**

- a) The original un-modified version of this report is a template and is retained in ART Gallery Templates folder structure. These template folders are read-only and any reports must be copied to a location in the user's site (Favorites or Public Folders) then mapped to the site's data.
- b) Experienced users with ad-hoc ART licenses may wish to modify/customize this report to better suit their needs. When modifying an ART Gallery report such as this one, the user will need to make a copy of the original report into a different folder. This copy can be created either by using the "save as" feature or by clicking on the "organize" icon in folder view.
- c) Please note that any additions to the report may affect report run time.

## 8. REVISION HISTORY:

Version	Description of Changes
V10.02.15	Original version -BETA
V10.05.05	Revision: Correction of minor defects
V10.06.09	Revision: Revised to comply with revised HUD Standards
V11.04.13	Revision: Revised to address known issues
V5	Revision: Revised to correct error in ethnicity formula Revision History added to manual
V6	Revision: Fixed an error with the Project Type counts.
V7	Revision: Report template for V6 had the “Extent of Domestic Violence” question mapped to “Extent of Homelessness.” Added inactive filters to sub-queries to remove inactive clients.
V8	Revision: Fixed an error where clients outside of the report date range were pulled into the report. Added “EDA Provider” to list of prompts on Tab K.
V9	Revision: Significant updates to report – Universe change; inclusion of Services, inclusion of CH and Vet filters; removal of summary page; removal of sub-assessment data; limits client to last transaction in the report period.
V10	Revision: Altered method used to pull services into dataset
V11	Revision: Removed Provider Reporting Group from results objects.
V12	Revision: Updated Picklists to 2014 Data Dictionary; removed Housing Status, Zip Code, and Zip Code DQ; added HUD logic for counting CH clients; added prompt for CH YN question inclusion.
