1. INTRODUCTION:

This ART report provides destination information and Permanent Supportive Housing retention information for Chronically Homeless and Veteran clients during a user specified reporting period. The first section of the report compiles data using the last transaction per client for Entry/Exits where there is an Exit during the date range selected for various Project Types. The second section of the report provides Permanent Housing Retention data (using the criteria specified by Community Solutions/100,000 Homes Campaign – updated to meet 2014 HMIS Data Dictionary definitions) for clients that are one year post placement in Permanent Supportive Housing projects.

Though the report is designed for use by communities participating in the 100,000 Homes Campaign, it can also be used to facilitate reporting for CoC's working to end Chronic and Veteran Homelessness by 2015 as specified in HUD's strategic plan as data are limited to only Veterans, only Chronically Homeless Clients or Chronically Homeless Veterans. Participants in the Zero: 2016 Project may also find the data useful. Data for the All Homeless Populations is included for comparison purposes.

The primary audience of this report includes project managers, agency administrators, and ServicePoint system administrators because of its ability to aggregate client data for multiple projects or continuums.

This report is intended to be used as often as needed to pull Permanent Housing placement and Permanent Supportive Housing retention data about projects in the Continuum of Care.

Prerequisites and workflow requirements:

- ServicePoint version 5.11.x
- ART version 3.X
- Standard Entry/Exit workflow.
 - The last transaction is used if more than one transaction exists for a single client. See Tech Note 6.2 for more information.

2. REPORT INSTRUCTIONS AND PROMPTS:

The easiest way to start using this report is to navigate to the automapper. This is a folder that has the reports automatically mapped to your site, so that you don't have to map them yourself. You can navigate to the automapper as shown in Figure 2.1, below:

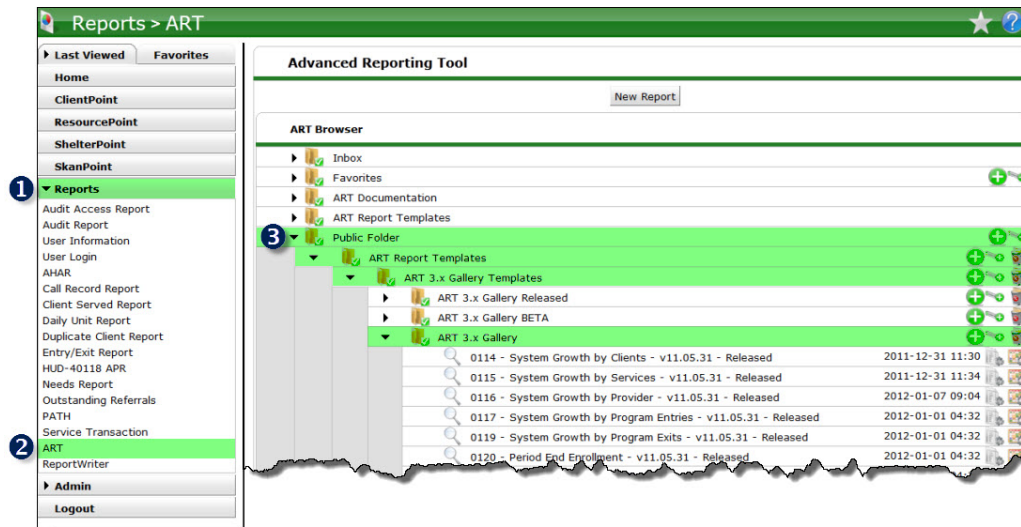

Figure 2.1

Requests for additional information concerning the report function/design should be directed to Bowman Systems' Customer Support Specialist (CSS) staff.

How to run: Upon opening the report, the User will be prompted (see Figure 2.2) to specify parameters which control the data returned by the report. Once the User has provided these parameters by responding to the user prompts, a green check-mark will appear next to each field to indicate that a selection has been made. The User should then single-click the "Refresh Data" button to generate the report.

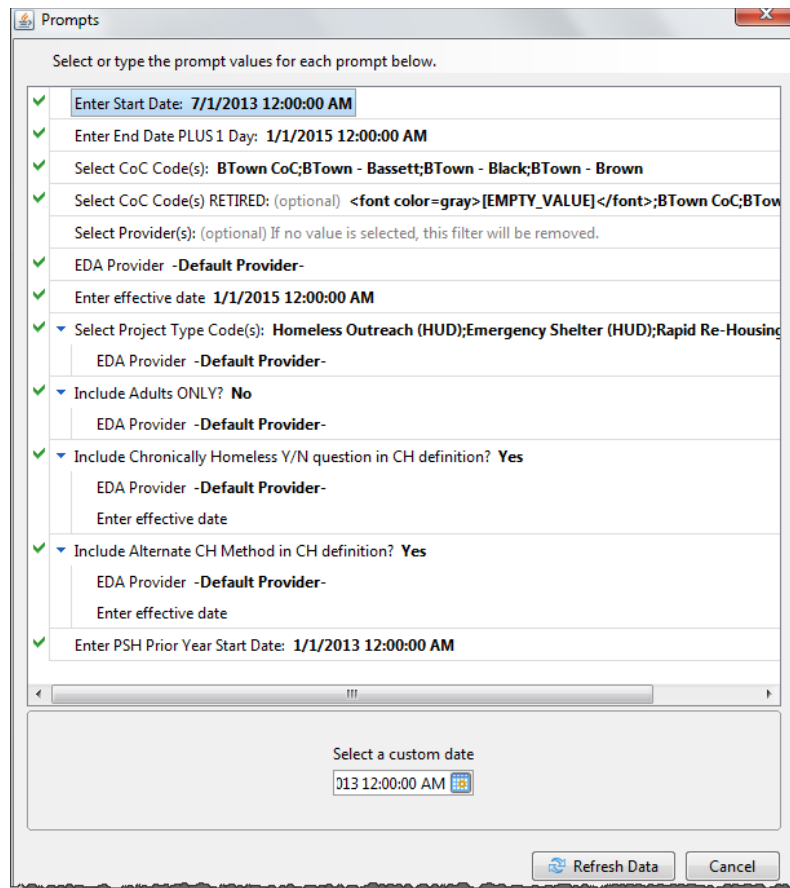

Figure 2.2

The user prompts contained in this report are:

1. **Enter Start Date:** The user should enter (or select from the calendar) the first day of the desired date range.
2. **Enter End Date PLUS 1 Day:** The user should enter (or select from the calendar) the date immediately following the last day of the reporting date range.**EDA Provider:** The user should select the EDA provider to run the report as, or leave it at the default "-Default Provider-" if EDA mode is not desired.
3. **Select CoC Code(s):** This prompt is optional. The user should select the CoC Code(s) desired.
4. **Select CoC Code(s) RETIRED:** This prompt is optional. The user may select values from the old Retired CoC Code field.
5. **Select Provider(s):** This prompt is optional. Select Provider(s) if desired.
6. **EDA Provider:** Enter EDA provider if desired.
7. **Enter Effective Date:** The user should enter (or select from the calendar) the desired effective date.
8. **Select Project Type Code(s):** This prompt is set to default to Homeless Outreach, Emergency Shelter, Rapid Re-Housing, Services Only and Safe Haven and HPRP. These codes are used for the PHP Summary and can be added or removed by the user.
9. **Include Adults ONLY:** This prompt is set to default to No to match the requirements for the 100,000 Homes Campaign. Selecting Yes for this prompt will limit the data set to clients aged 18 or older.
10. **Include Chronically Homeless Y/N question in CH Definition:** Selecting Yes will include clients that have Yes entered for the Chronic Homeless question.
11. **Include alternate CH Method in CH definition:** Selecting Yes will included clients as per the "alternate CH method" found in the Tech notes.
12. **Enter PSH Prior Year Start Date:** The user should enter (or select from the calendar) the date that is 1 year prior to the Start Date Selected in "Enter Start Date." This date is used in the Retention Summary.

Note: See Tech Note 6.2a for additional information on selection of Provider and CoC Code.

3. DESCRIPTION AND LAYOUT:

3.1 Tab A – PHP Summary

This tab has housing placement information for Chronically Homeless, Veteran, Chronically Homeless Veterans, and All Homeless Populations.

Permanent Housing Placements / Retention	
Chronic Homeless / Veteran Summary	
Report Dates: 1/1/2010 - 12/31/2013	
1) Number Served:	
a) Chronically Homeless Non-Veterans	651
b) Chronically Homeless Veterans	90
c) Non-Chronic Veterans	694
d) All Homeless Populations	9,099
2a) Number Placed into Permanent Housing - Chronically Homeless Non-Veterans:	
a) PSH for formerly homeless persons	49
b) Rental by client, no housing subsidy	75
c) Rental by client, other non-VASH subsidy	16
d) Owned by client, with housing subsidy	0
e) Staying or living with family, permanent tenure	16
f) Staying or living with friends, permanent tenure	10
2b) Number Placed into Permanent Housing - Chronically Homeless Veterans:	
a) PSH for formerly homeless persons	1
b) Rental by client, no housing subsidy	16
c) Rental by client, VASH subsidy	9
d) Rental by client, other non-VASH subsidy	2
e) Owned by client, with housing subsidy	0
f) Staying or living with family, permanent tenure	0
g) Staying or living with friends, permanent tenure	1
2c) Number Placed into Permanent Housing - Non-Chronically Veterans:	
a) PSH for formerly homeless persons	21

Figure 3.1

Tab A contains the following filters (applied throughout):

- Only the Valid Transaction is counted. This is the transaction of the LAST Entry Exit with an Exit Date that is closest to the end of the report period but not after.
- Clients with an Entry Exit from the following Project Types are not included – Permanent Housing, Permanent Supportive Housing, Prevention and Other.
- Clients must meet one of the following criteria –
 - EITHER Client has a Housing Status of Category 1 - Homeless at Entry with an Entry/Exit with a Project Type Code of PH - Rapid Re-Housing, Services Only or Homelessness Prevention and Rapid Re-Housing (Retired)
 - OR client has an Entry Exit with a Project Type Code of Street Outreach, Emergency Shelter, Safe Haven or Transitional Housing.

Section Explanations where 1a gives the number served and 2a gives the PH placements sorted by destination:

- **1a/2a = Chronically Homeless Non-Veterans** – Counts Unique Client Id where each client is identified at Entry as Chronically Homeless and a non-Veteran (see Tech Note 6.2).
- **1b/2b = Chronically Homeless Veterans** – Counts Unique Client Id where each client is identified at Entry as Chronically Homeless and a Veteran. Clients under 18 are excluded from this category.
- **1c/2c = Non-Chronic Veterans** – Counts Unique Client Id where each client is identified as a Veteran. Clients under 18 are excluded from this category.
- **1d/2d = All Homeless Population** – Counts Unique Client Id that meet the criteria outline in the Tab A filters above.

3.2 Tab B – PHP Detail

Data on the Client Detail tab is provided for reference and data cleaning purposes. The transaction that is **bolded** is the one that is used for counting purposes in the body of the report.

Permanent Housing Placements / Retention														
PHP Client Detail														
Report Dates: 7/1/2013 - 12/31/2014														
Unique Id 4,751	Client Id	EE Id	Provider	Entry Date	Exit Date	Destination	Housing Status	Age	Vet	CH	Alt CH	Disab	PLS	LOS

Figure 3.2

Column Explanations:

- **Unique Id:** The Client Unique Id (and count) is provided for each client in the report. It is used throughout for de-duplication.
- **Client Id:** The Client Id (and count) is provided for each client in the report.
- **EE Id:** The Entry Exit Id is provided for each client in the report.
- **Provider:** This column gives the provider name for each Entry/Exit.
- **Entry Date:** This column provides the Entry Date for each Entry/Exit.
- **Exit Date:** This column provides the Exit Date for each Entry/Exit.
- **Destination:** This column provides the destination for each client in the report. Only Permanent Destinations are included in the report body.
- **Housing Status:** This column provides the housing status for each client in the report.
- **Age:** This column provides the age of the client at Project Entry for each client in the report.
- **Vet:** This column provides the Veteran Status for each client in the report.
- **CH:** This column provides the Chronic Homeless status for each client in the report.
- **Alt CH:** This column displays an X for each client who has a Y to the Disability Y/N question, a Prior Living Situation of Emergency Shelter, Place not meant for Human Habitation or Safe Haven AND a Length of Stay of One year or Longer in that destination.
- **Disab:** This column provides the Disability Status for each client in the report.
- **Prior Living Situation:** This column provides the prior living situation for each client in the report and is used as part of the calculation for Alt CH.
- **LOS:** This column provides the length of stay in prior residence for each client in the report and is used as part of the calculation for Alt CH.

3.3 Tab C – Retention

This tab contains data about clients after a Permanent Supportive Housing placement.

Permanent Housing Placements / Retention	
Retention Summary	
Prior Year Start Date: 1/1/2009	Report Dates: 1/1/2010 - 12/31/2013
Number of Clients Retained:	
a) Entries into PSH	52
b) Unsuccessful Exits	8
c) One Year Retention Rate	84.62%
d) Number Deceased Clients	0
e) Adjusted One Year Retention Rate	84.62%

Figure 3.3

Row Explanations (note the entire table is limited to Chronically Homeless Clients):

- **Entries into PSH:** This row counts clients with a valid Entry into a Permanent Supportive Housing project where the Entry falls between the Prior Year Start Date and the Report Start Date.
- **Unsuccessful exits:** Counts Clients with unsuccessful entries (as defined below)
- **One Year Retention Rate:** This row is the rate of clients retained in PSH – clients with a positive exit or with no exit date
- **Number of deceased clients:** This row has the number of clients with Deceased as their exit destination
- **Adjusted One Year Retention Rate:** This row adjusts for clients with Deceased as their exit destination.

Negative

- "Emergency shelter, including hotel or motel paid for with emergency shelter voucher (HUD)"
- "Transitional housing for homeless persons (including homeless youth) (HUD)"
- "Psychiatric hospital or other psychiatric facility (HUD)"
- "Substance abuse treatment facility or detox center (HUD)"
- "Hospital (non-psychiatric) (HUD)"
- "Jail, prison or juvenile detention facility (HUD)"
- "Don't Know (HUD)"
- "Refused (HUD)"
- "Staying or living with family, temporary tenure (e.g., room, apartment or house)(HUD)"
- "Staying or living with friends, temporary tenure (e.g., room apartment or house)(HUD)"
- "Hotel or motel paid for without emergency shelter voucher (HUD)"
- "Foster care home or foster care group home (HUD)"
- "Place not meant for habitation (e.g., a vehicle or anywhere outside) (HUD)"
- "Other (HUD)"
- "Safe Haven (HUD)"
- "Deceased (HUD)"
- "Data not collected (HUD)"
- "No exit interview completed (HUD)"
- "Moved from one HOPWA funded Project to HOPWA TH (HUD)"
- "Residential project or halfway house with no homeless criteria (HUD)"
- "Rental by client with GPD, TIP subsidy (HUD)"

Positive

- "Permanent supportive housing for formerly homeless persons(such as SHP, S+C, or SRO Mod Rehab)(HUD)"
- "Rental by client, no housing subsidy (HUD)"
- "Owned by client, no housing subsidy (HUD)"
- "Rental by client, VASH Subsidy (HUD)"
- "Rental by client, other (non-VASH) housing subsidy (HUD)"
- "Owned by client, with housing subsidy (HUD)"
- "Staying or living with family, permanent tenure (HUD)"
- "Staying or living with friends, permanent tenure (HUD)"
- "Long –term care facility or nursing home (HUD)"
- "Moved from one HOPWA funded project to HOPWA PH (HUD)"

3.4 Tab D – Retention Detail

This tab contains the Client Detail for the Retention tab.

Permanent Housing Placements / Retention

Figure 3.4

Column Explanations:

- **Unique Id:** The Client Unique Id (and count) is provided for each client in the report. It is used throughout for de-duplication.
- **Client Id:** The Client Id (and count) is provided for each client in the report.
- **EE Id:** The Entry Exit Id is provided for each client in the report.
- **Provider:** This column gives the provider name for each Entry/Exit.
- **Entry Date:** This column provides the Entry Date for each Entry/Exit.
- **Exit Date:** This column provides the Exit Date for each Entry/Exit.
- **Destination:** This column provides the destination for each client in the report. Only Permanent Destinations are included in the report body.
- **Age:** This column provides the age of the client at Project Entry for each client in the report.
- **CH:** This column provides the Chronic Homeless status for each client in the report.
- **Alt CH:** This column displays an X for each client who has a Y to the Disability Y/N question, a Prior Living Situation of Emergency Shelter, Place not meant for Human Habitation or Safe Haven AND a Length of Stay of One year or Longer in that destination.
- **Disab:** This column provides the Disability Status for each client in the report.
- **Prior Living Situation:** This column provides the prior living situation for each client in the report and is used as part of the calculation for Alt CH.
- **LOS:** This column provides the length of stay in prior residence for each client in the report and is used as part of the calculation for Alt CH.

3.5 Tab E – Additional Information

This tab contains the Prompt Values and Providers included in the report for both Tabs A and C. Both CoC Code and CoC Code (RETIRED) are displayed. If a valid “New” CoC is present, the Retired value will be shown in Grey text on a white background.

Permanent Housing Placements / Retention

Figure 3.5

4. INPUT CONTROLS:

4.1 Tab B – PHP Detail

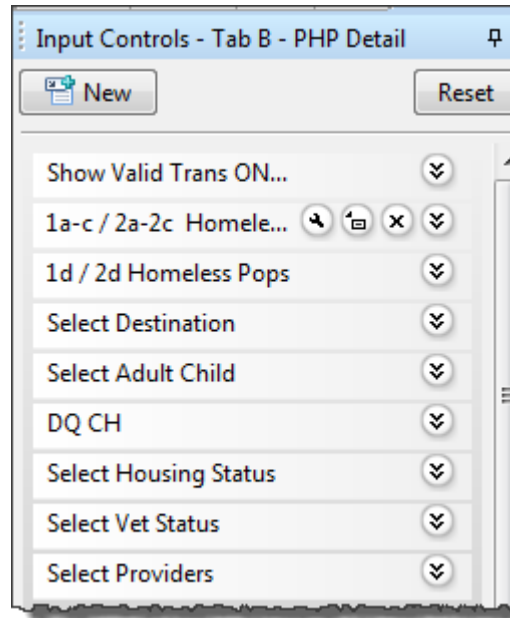

Figure 4.1

Input controls include the following and allow the user to filter the data for each:

- 1) **Show valid Transaction ONLY** – this input control allows the user to limit the data set to reflect only the valid transaction and is defaulted as such. To see all of the transactions, select All values.
- 2) **1a-c/2a-2c Homeless Pops** – This input control allows the user to limit the data set to reflect data in the table for CH Vets, CH Non Vets and Vets.
- 3) **1d/2d Homeless Pops** – This input control allows the user to limit the data set to reflect data for all populations
- 4) **Select Destination** - this input control allows the user to limit the data set to the destination
- 5) **Adult Child** – This input control allows the user to limit the data set to Adults, Children or Error.
- 6) **DQ CH** – This input control allows the user to locate errors related to Chronic Homeless status.
- 7) **Housing Status** – This input control allows the user to limit the data set to a particular Housing Status.
- 8) **Veteran Status** – This input control allows the user to limit the data set to a particular Veteran Status.
- 9) **Select Providers** – this input control allows the user to limit the data to a particular provider(s).

4.1 Tab D – Retention Detail

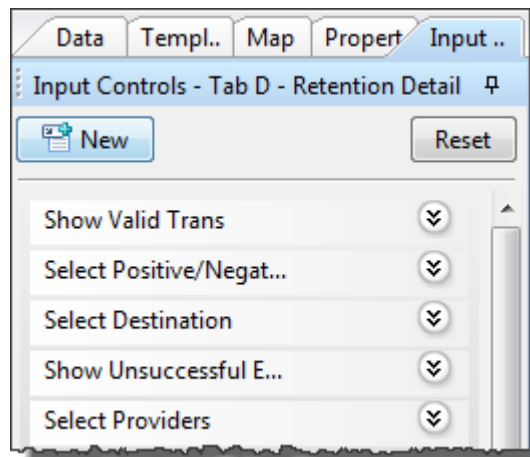

Figure 4.2

Input controls include the following and allow the user to filter the data for each:

- 1) **Show valid Transaction ONLY** – this input control allows the user to limit the data set to reflect only the valid transaction and is defaulted as such. To see all of the transactions, select All values.
- 2) **Show Positive/Negative Destination** – this input control allows the user to limit the data to either positive or negative destinations as defined above. Any non-standard destination will count as Negative.
- 3) **Select Destination** - this input control allows the user to limit the data set to the destination
- 4) **Show Unsuccessful Exits** – This input control allows the user to limit the data to unsuccessful exits.
- 5) **Select Providers** – this input control allows the user to limit the data to a particular provider(s).

5. ALERTERS:

5.1 Tab B, D – Detail

1. Clients with null/missing values for will display with a red “null” in the appropriate column.

5.2 Tab E – Additional Information

1. An alerter will appear in the Project Type Code cell if the user has added to or removed codes from the Default setting. This may or may not be an error.

Figure 5.2

6. TECHNICAL INFORMATION:

6.1. How the data are pulled:

This report utilized two separate queries, both of which are based on the Cutoff Universe. All values are pulled as of Entry Exit Entry Date.

The BISData query pulls for active clients with active Entry Exits by a list of providers or CoC Code that have an Exit Date during the report start and end dates and one of the following is true:

- Project Type Code is in List with Street Outreach, Emergency Shelter, PH - Rapid Re-Housing, Services Only, Safe Haven, Transitional Housing and Homelessness Prevention and Rapid Re-Housing (RETIRED)
- Housing Status is Category 1 – Homeless
- Continuously Homeless for 1 year or longer is Yes OR Homeless 4 or more times in 3 years is YES AND Disability of Long Duration is Yes.
- Optional: Is Client Chronically Homeless is Yes and Disability of Long Duration is Yes
- Optional: Alternative definition of Chronically Homeless is met where Type of Living Situation is Emergency Shelter, Safe Haven or Place Not Meant for Habitation AND Length of Stay is One year or Longer AND Disability of Long Duration is Yes

Additionally, the query can be limited to pull Adults only.

The Retention query pulls for active clients with active Entry Exits by a list of providers or CoC Code that have an Entry Date that falls between Enter PSH Start Date and Report Start Date and Exit Date is on or after Start Date or is null. Project Type Code must be PH - Permanent Supportive Housing and the client meets one of the three Chronically Homeless calculation methods dependant on selection in prompts. Additionally, the query can be limited to pull Adults only.

6.2. Technical notes:

General Notes:

- a) In the prompts the user has the option to select Provider(s) or CoC Code(s). It is important to note that selecting from more than one of these at a time widens the “net” in terms of pulling data. So for example, selection of a single provider and a CoC Code will return data for both the provider and all of the providers with the appropriate CoC Code.
- b) Clients with a Null/Missing Age are counted as Adults.
- c) Chronically Homeless clients must have (1) Yes to Disabling Condition and (2) Entry/Exit from a provider with a Program Type Code of Homeless Outreach, Emergency Shelter, Rapid Re-Housing, Services Only or Safe Haven. They must also meet one of the following criteria
 - I. Continuously Homeless for 1 year or longer is Yes OR Homeless 4 or more times in 3 years is YES AND Disability of Long Duration is Yes.
 - II. Optional: CH – Clients with a recorded Yes to “Is Client Chronically Homeless”

- III. Optional: Alt CH – Clients with a Previous Destination of Emergency Shelter, Safe Haven, or Place not Meant for Human Habitation AND a Length of Stay in that is One Year or Longer.
- d) Veteran Status is determined by a Yes to Client Veteran Status or Is Client a US Military Veteran. The client must also be 18 or older or have a Null/Missing date of birth.

Permanent Housing Placement Section Notes:

- a) Only Valid Transaction is counted = Last Entry/Exit transactions with an Exit Date during the date range selected.
- b) Clients from the following Project Types are not included in the tab – Permanent Housing, Permanent Supportive Housing, Prevention and Other
- c) Clients must meet one of the following criteria –
 - I. EITHER client is marked as Category 1 - Homeless at entry and has an Entry/Exit with a Project Type Code of PH - Rapid Re-Housing, Services Only or Homelessness Prevention and Rapid Re-Housing (RETIRED)
 - II. OR client has an Entry/Exit with a Project Type Code of Street Outreach, Emergency Shelter, Safe Haven or Transitional Housing.

Permanent Supportive Housing Retention Section Notes:

- a) Data in this section are limited to Permanent Supportive Housing providers only and to clients who are marked as Chronically Homeless (using either method described above).

6.3. Modification options:

- a) This report was built to specifications for the 100,000 Homes Campaign VA 25 Cities Initiative. It may be modified for other uses if desired.
- b) The original un-modified version of this report is a template and is retained in ART Gallery Templates folder structure. These template folders are read-only and any reports must be copied to a location in the user's site (Favorites or Public Folders) then mapped to the site's data.

	Filter Objects:	Client Inactive	Entry Exit / Clients folder
		Entry Exit Inactive	Entry Exit folder

8. REVISION HISTORY:

Version	Description of Changes
V1	Original version –BETA
V2	Revision: Removed Literally Homeless Filter from Tab E Additional Information and added Ret Valid Trans to Retention Providers table. Clarified documentation about how household members are counted.
V3	Revision: updated PL values to HUD Data Dictionary; added provider query; added new CH method; added prompts for two alternate versions of counting CH clients; added Providers input control.
V4	Revision: correct Housing Status value “Category 1 – Literally Homeless” to remove special dash character
